PROFILE

International student, currently doing a BSc in Computer Science and Engineering at TU Delft. Recently worked as a React Native Developer at TheWidlarzGroup, building mobile applications with React Native, TypeScript, and native modules with Swift and Kotlin, specializing in video and audio development.

EDUCATION

TU Delft - BSc in Computer Science and Engineering

Sep 2025 - June 2028 (expected)

I'm currently studying at one of Europe's leading technical universities, focusing on core computer science fundamentals including data structures and algorithms, object-oriented programming in Java, computer organization with assembly language, and web and database technologies. This rigorous curriculum is building my expertise in software engineering principles and system-level programming.

WORK EXPERIENCE

React Native Developer at TheWidlarzGroup Kraków, Poland (Remote)

May 2025 - Sep 2025

- Built **Node.js** backend handling **1000+ of concurrent video tracking requests** with zero downtime
- Containerized applications with **Docker** for consistent deployment
- Specialized in native video and audio processing across **iOS and Android platforms using Swift and Kotlin**
- Developed features in stream-downloader to support downloading and offline playback of HLS, DASH, MP4, and DRM-protected video content

AI Trainer (Freelance) at Outlier.ai USA (Remote)

Apr 2025 - Aug 2025

- Evaluated and **debugged AI-generated React/TypeScript code**, identifying logic errors, performance issues, and anti-patterns in frontend implementations
- **Engineered precise prompts** to guide AI models in producing correct component architecture, state management, and responsive UI patterns
- **Promoted to reviewer role** for consistently high-quality work, **evaluating other trainers' prompt engineering** and code corrections

Network Administrator at WASKO S. A. Gliwice, Poland

Mar 2023, May 2024

- Installed, configured, and maintained servers, routers, firewalls, and other network devices
 - Troubleshoot network problems and resolved technical issues with both hardware and software components
-

SKILLS

- **Programming Languages:** Java, Kotlin, Swift, TypeScript, JavaScript
- **Frontend Development:** React, Next.js, React Native, Tailwind CSS
- **Mobile Development:** React Native, iOS (Swift), Android (Kotlin), Cross-platform video/audio
- **Backend Technologies:** Node.js, Server development, RESTful APIs
- **Tools & Technologies:** Docker, Git, Native module development
- **Specializations:** Video streaming, Audio processing, Mobile multimedia applications, Full-stack web development
