PROFILE

Aspiring student, starting a BSc in Computer Science and Engineering at TU Delft this September. Recently worked as a React Native Developer at TheWidlarzGroup, building mobile applications with React Native, and native modules with Swift, and Kotlin. Also contributed as an AI Trainer on the Outlier freelancing platform. Experienced in hackathons, with strong creativity, problem-solving, and teamwork skills.

EDUCATION

TU Delft - BSc in Computer Science and Engineering

Sep 2025 - June 2028 (expected)

Beginning my studies in one of Europe's leading technical universities, with a focus on computer science, engineering, and innovative problem-solving. Building on a strong foundation in IT, programming, and software development, I aim to deepen my expertise in areas such as algorithms, systems, and artificial intelligence while contributing to an international academic community.

WORK EXPERIENCE

React Native Developer at TheWidlarzGroup Kraków, Poland (Remote)

May 2025 - Now

- Implemented and maintained native modules for React Native, focusing on cross-platform video functionalities.
- Maintained and extended the react-native-video library, leading development of its native implementations in Swift (iOS) and Kotlin (Android).
- Designed and built a server for stream-downloader, a library enabling offline video playback.
- Developed features in stream-downloader to support downloading and offline playback of HLS, DASH, MP4, and DRM-protected video content.

Network Administrator at WASKO S. A. Gliwice, Poland

May 2024 & March 2023

- Installed, configured, and maintained servers, routers, firewalls, and other network devices
- Troubleshoot network problems and resolved technical issues with both hardware and software components

Computer Hardware Technician Intern at BPGame Faro, Portugal

April 2023

- Installed and configured computer hardware, software, systems, networks, printers, and scanners
- Developed and maintained a secure network and computer systems, ensuring data protection and security
- Development of the ability to use general and professional English

ACTIVITIES & AWARDS

- TOEFL iBT: Scored 101/120 in September 2024 (C1 English)
- Erasmus+ Internship Certificate: Completed in Faro, Portugal
- MTCNA (MikroTik Certified Network Associate): Valid until December 2025
- Hackathon Participation: Projects submitted on DevPost platform
- Volunteer Experience:
 - Participation in WOŚP (The Great Orchestra of Christmas Charity) in January 2025.
 - Runmageddon 2024, Gliwice
